State of the Clinic

Clinic capacity has increased from 13 hours per week to 23 hours per week since 2012, a 44% increase due to our increasing patient population --- 287 in 2012 to 656 in 2014 (a 56% increase). Currently, scheduling for new patient appointments exceeds 2.5 weeks.

Funding streams are decreasing and questionable due to North Carolina and 20 other states’ considerations in regard to decisions related to federal Medicaid expansion. Meanwhile, demand for clinic and pharmacy services has experienced a steady increase. In 2014, Community Free Clinic assumed the patient eligibility, enrollment, and recertification process (that provides program integrity to investors, donors, and community partners). This was due to county and state funding cuts to the county’s healthcare safety net network that assures that all enrolled patients meet federal poverty income guidelines and other eligibility criteria to access medical care and medications at no cost.

North Carolina’s HealthNet Funding at Risk

HealthNet—NC’s healthcare safety net for low income uninsured residents living with chronic health conditions started in Cabarrus County ten (10) years ago. Infrastructure funding is provided by NC Office of Rural Health. It is a county wide public/private collaborative partnership that assures that the working poor have access to needed healthcare services and prescribed medications to maintain and improve their health status.

Healthy people:

- Can take care of themselves and their families
- Seek and maintain employment
- Eliminate emergency department visits for treatment of non-emergent chronic health conditions.

(“Future of the Clinic” continued on Page 7)

The Community Free Clinic 2015 Board of Directors

Our 2015 Board of Directors include (left to right): Shad Ritchie (Chair), Bennett Cole (Vice Chair), Stacey Griffin, Dr. Earl Myers, Jackie Alexander, Patrick Lawrence (Treasurer), Sue Jones, Perla Nunes, Gina Goff, Tri Tang, Dr. James H. Cooke (Medical Director), Ladoska Keeter, and Rich Zatulove. Board Members not in photo: Dr. Scott Centers, Lori Clay, Ryan Hawkins, Dr. Jon Hobbs, and Vanessa Nunez.

The Future of Community Free Clinic:

(continued from Page 1)

**Will North Carolina expand Medicaid?** It appears unlikely that our Governor and legislature will elect to expand Medicaid to the federal poverty level as defined in the Affordable Care Act of 2010—up to 138%—($16,105 annual household income for a single household). NC Medicaid is currently at 65% of the federal poverty level. The maximum federal funding that would initially supplement our state’s cost of Medicaid expansion will continue to decrease each year since the Affordable Care Act (Obamacare) was enacted. The Governor would probably like to have some degree of Medicaid expansion prior to the next NC Governor’s race in 2016 but would most likely have opposition and compromise within our NC legislature. Much will also remain to be seen until after the next Presidential election. In regard to the Affordable Care Act as a whole, much could change dependent upon the Supreme Court ruling scheduled for the summer of 2015 in regard to the constitutionality of the federally administered insurance market place.

**Will the Community Free Clinic continue to be needed if and when Medicaid is expanded?** We have had many conversations with local, regional, state, and national leaders and healthcare experts who say that there will always be many who will not qualify for Medicaid and who cannot afford the costs of private health insurance—premiums, deductibles, co-pays, etc. Besides access to primary medical care and medications, there are many other unmet healthcare needs in our county including behavioral and oral health.

The Community Free Clinic will continue to respond to the unmet healthcare needs of Cabarrus County as long as funding is available and there is lack of access for healthcare services for our family, friends, and neighbors. The mission and vision of our founders, Dr. David Lockhart and Dr. George Liles, continues to guide our response to our county’s unmet healthcare needs.

Karie Sturdevant (left) and Jody Morgan (right) have spent the vast majority of their careers at the Community Free Clinic, a total of 28 years of service. Jody is a certified medical assistant. She is our electronic medical record “champion”, coordinates patients’ specialty referrals, and provides clinical support for specialty and volunteer medical clinics.

Karie is a pharmacist technician. She coordinated our medication assistance program and provided pharmacy support for many years. She is now our Operations Manager and coordinates and oversees our clinic, pharmacy, and patient enrollment and eligibility services. Jody and Karie’s expertise, skills, commitment, and passion have a positive impact on our Mission, services, and patients.

2014 in Pictures.....Thank You For Your Support...
On May 1, 2015, The Community Free Clinic was recognized as Cabarrus County’s 2014 Non Profit of the Year at "Celebrate Cabarrus", the annual Cabarrus Regional Chamber of Commerce awards event.

A non profit is only as successful and effective as the community in which it is located. On behalf of our Staff and Board of Directors, we thank our supporters, volunteers, and community partners for investing in our Mission to "Keep People Healthy". We are honored to respond to our County's un-met healthcare needs and make Cabarrus County a healthier place to live, work, and play.
Mission and Goals

Mission:
To help Cabarrus County adults move toward wellness by providing healthcare and pharmacy services.

Goals:
- To remove the barriers of limited financial resources and lack of health insurance to increase access to healthcare and pharmacy services.
- To increase the health stabilization of patients by providing primary care and pharmacy services.
