

# Community Free Clinic

2015 In a Heartbeat . . .

## Responding to Cabarrus County's Unmet Healthcare Needs . . .

Our patients are uninsured adults living in Cabarrus County who do not qualify for Medicaid, are not old enough to be eligible for Medicare, and cannot afford costs associated with private health insurance. By providing healthcare and medicine at no cost to our low income family, friends, and neighbors, we keep people out of the emergency room and the hospital. Healthy people can work and take care of themselves and their families.
